## SIPP, SSAS and GDPR

GDPR is coming! All pension administrators should be well advanced in planning for new data protection laws that come into force next year as a result of GDPR, the latest European legislation on data protection. Trustees and administrators of SIPP and SSAS are not exempt and data protection and cyber security is an area of increased regulatory focus by all the FCA, TPR and the ICO.

We would be delighted if you could join us for a client seminar looking at "SIPP and SSAS specific" key issues around GDPR compliance. The seminar will be jointly hosted by partners in our pensions, data protection and financial regulation teams. Key areas covered include:

- latest ICO guidance on implementing GDPR
- Key GDPR considerations for the customer / scheme member relationship
- Key GDPR considerations for trustees, administrators and their service providers
- Contractual protections and risk management
- FCA expectations for handling client data and addressing cyber security
- Sensitive personal data, ill health and death benefits
